

To young people and those who work with them...
make a FREE sailing day a memorable end to your busy academic year

The Boleh, Malay for 'can do', is a striking 40 ft boat based on a Chinese junk, built in Singapore in 1949, and refitted in the UK in 2022, allowing her to gain a commercial operating code.
<https://www.bolehproject.com>.

The Boleh Trust offers memorable sailing experiences from one to five days in length, to organisations for young people, and adults who work with them, under the supervision of a highly qualified crew, with DBS certification. (<https://www.bolehproject.com/learning-with-boleh/>)

On 14, 15, 16, 22 and 23 July 2026, Boleh will be available for a FREE day sail from Chichester Marina.

If you would like this unforgettable experience for a group of up to 8 young people, or if you have a group of adults who work with them who want a memorable end to the term, please contact me at:
