

Sparx Maths

In Year 5 and 6, Sparx Maths is used as our online Homework platform. Homework is set weekly; it should take your child around 30 minutes to complete. It is also used in the entire Secondary phase, so is a great opportunity for children to prepare themselves for Secondary homework.

Children can log in following this link:
<https://www.sparxmaths.uk/>
They need to sign in with their Google Classroom details. For example:
achild28@chichesterfreeschool.org.uk
password: DDMM

What is Sparx Maths Homework?

- Sparx provides personalized homework to each child, with questions that are challenging yet achievable, and tailored to their learning needs.
- The majority of each week's homework will be based on recently learnt topics, but it will also include some questions from previous topics to help reinforce their learning.
- Students access their homework on their online Sparx account, where they'll get immediate feedback for each question about whether their answer was correct or they need to have another try.
- While homework is accessed online, students should record their work in their workbooks. Sparx has a "bookwork checks" system to help students form this habit.
- Every question in Sparx has a support video attached to that your child can get help independently.
- Every time children complete a task or win a minigame, they earn Sparx Experience Points (XP).
